

# INDEX OF CONTENTS OF 83 GREATEST CLASSIC CD-ROM

Thank you for purchasing this exciting library of self-improvement classics. Please print this page to make it easier for you to find the FILE that corresponds to the TITLE you would like to work with.

To get the most of them, I suggest that you get comfortable in front of the computer and browse through the titles. Just start with what you're most curious in and go from there.

You could also print some of them, or parts of them, to read comfortably away from the PC, and to highlight, underline, and comment.

Please don't make the mistake of simply believing everything that's written. A critical and thinking mind is the most valuable resource we have. See what makes sense; see what connects - where you can glean the most nuggets of wisdom from.

It's different for every person who reads these.

Try also not to just discard all of the books because some parts do not appeal to you. If you feel adverse to some of the more "fundamentalist christian" views of the authors within, remember that everyone has a different concept of "GOD", and you should project your own beliefs and experiences into these pages while also keeping a safe (reasonable!:-) distance.

Don't be overwhelmed by the sheer volume of the works enclosed. Just start somewhere and keep at it. You don't have to read ALL of it, and there's certainly no time limit imposed on you. Go at your own pace.

Please also consider a small donation to [www.thepdi.com](http://www.thepdi.com), to keep the website and its services free and running!

Check back frequently, as I might find some new quality books to add to this collection.

That is all I wanted to add to the enjoyment within. Have fun reading!

Donald G. Carty (Donald@thepdi.com)
